

Welcome to the new world of better
financial opportunities

Reliable partnership, honor and competence

ARGO FINANCE is an investment company that specialize in various areas, including stock trading financial and cryptocurrency trading, margin trading, mining, staking, artificial intelligence development, NFT, ICO, and IPO

We aim to provide investors with unique investment opportunities and help them achieve financial success. We base our approach on advanced technologies and deep market knowledge to ensure maximum efficiency and reliability in our services.

The vertices conquering is **the right path to success.**

2020

The beginning of our future investment platform development has been laid. It took a reliable crypto trading platform to use various cryptocurrencies as a financial instrument with advanced features. And we did it.

In addition, knowledge-intensive resources for risk management and investment strategies were developed in 2020. So that there is a stable opportunity to make informed and profitable investment solutions for investors.

And of course, in 2020, a trading strategy has been fully formed, which relies directly on the experience of working with cryptocurrency funds of people who will subsequently form the core of the company's team

Russell Higgins AO

OUR TEAM

03

2021

Russell Allan Higgins joined the Board and was appointed Chairman. He is also a member of the Remuneration Committee.

2021 is the time when our permanent CEO began forming the team core using the principles of single common views on cryptocurrency trading.

It was Russell Allan's like-minded people who became the core of the team, which to this day firmly connects all divisions of the company into a single whole, remaining a reliable foundation for subsequent business achievements of the company.

GROWTH

05

2023

A time when it's necessary to grow, develop, fight competitors and take the right steps to grow investment and make even more profit for our customers. 2023 was the most important moment we have all given for so long.

This is the yearArgo Finance, an investment trading platform, began providing its services around the world.

First of all, we focused our efforts on providing our customers with the safest possible cooperation conditions and, as the practice of interaction has shown, we coped with this task perfectly, because the number of investors continues to grow steadily, demonstrating confidence in our services and products.

PLATFORM

2022

Creation of a full-fledged investment trading platform with an independent squad of trading experts. It was in 2022 that our own algorithms were developed to help quickly and without risk identify the most promising deals and exchange trends from the point of view of our business.

In addition, in 2022, due to many successful deals, we have managed to form working capital not only for the implementation of deals, but also for the further development of the platform.

In particular, using free money, we bought specialized and largely unique equipment with improved performance, including for cryptocurrency trading and mining. And in addition to this work, we were able to further increase our staff, because this became initially a necessity due to the increase in the number of customers and the platform development in directions that constantly generate profit and require constant expansion.

Business legality and legal transparency

Argo Finance has successfully completed its registration process and is now legally registered to operate in Australia. This registration confirms that Argo Finance complies with all the necessary requirements and standards set by Australian regulatory bodies for financial institutions.

Argo Finance has obtained all necessary licenses and permissions from the Australian Securities and Investments Commission (ASIC), the principal regulatory body overseeing financial markets, securities, futures, and the conduct of financial service organizations in Australia. Furthermore, Argo Finance's operations align with the regulations set forth by the Australian Prudential Regulation Authority (APRA), which is responsible for ensuring the stability and efficiency of the country's financial system.

Our registration with these esteemed bodies reaffirms Argo Finance's commitment to providing transparent, ethical, and top-tier financial services to our clients.

Stock and Commodity Investment:

Argo Finance bridges clients to global stock and commodity markets. With a deep understanding of market trends, we provide avenues for investment in both equities and tangible assets, balancing risk and reward to meet individual investment goals.

Forex Trading:

Engage in the world's largest financial market with Argo Finance's Forex trading services. Our seasoned traders and state-of-the-art platforms empower clients to trade major, minor, and exotic currency pairs with confidence.

Loan Services:

Recognizing the diverse financial needs of our clientele, Argo Finance offers comprehensive loan services. Whether it's for personal endeavors, business expansions or emergency requirements, our loan solutions are tailored to provide timely and reliable financial support.

Cryptocurrency Investment:

Argo Finance stays ahead of the curve by offering cryptocurrency investment opportunities. By navigating the dynamic world of digital currencies, we help our clients diversify their portfolios and tap into one of the most innovative financial markets.

Retirement Investment Plan:

Our retirement investment plans are tailored to secure your financial future. At Argo Finance, we strategize long-term growth and sustainable returns, ensuring our clients can enjoy their post-retirement years with financial peace of mind.

Providing Financial Advisers:

Expertise meets personalized advice with Argo Finance's team of financial advisers. Our professionals work closely with clients, offering bespoke financial solutions, from wealth management to strategic financial planning.

ARGO FINANCE

Our mission is to combine the interests of each investor into a common idea of increasing capital based on the ARGO FINANCE platform.

Vision Statement for Argo Finance:

"To be a global beacon in the financial world, illuminating the path to financial freedom, prosperity, and innovation for our clients."

Mission Statement for Argo Finance:

"Empowering individuals and businesses through tailored financial solutions, Argo Finance is dedicated to driving success, nurturing trust, and fostering innovation. Every decision we make, every solution we offer, aligns with our commitment to our clients' financial aspirations and our unwavering integrity."

Our path to the future.

What has been done, what is to be done.

Start of the development process of our investment platform. This was a year when the principles of how we will use mining, crypto-trading, what knowledge intensive resources we need and what trading strategy we intend to use in our business were formed.

2020

2021

Completion of tests and introduction of trading algorithms and other software into trading processes.

In addition, in 2022 we were able to significantly speed up the process of forming working capital, created many new jobs and began the first stage of complete technical modernization of the platform, taking into account the existing proprietary software and the equipment we purchased with improved performance, including for cryptocurrency trading and mining.

2022

We began to form a team and also came close to getting a full package of software and trading algorithms of our own design necessary for our business activities. Because technological independence is the key to success in all business areas and the safety of our customers' investments.

2023

We plan to devote the whole next year to important improvements that will be used by both investors and the entire investment process as a whole. Among such improvements, it is planned to increase support opportunities, expand the capabilities of cryptocurrency trading, and develop a cryptocurrency trading service.

2025

The most important thing this year is the creation of Argo Finance. The most important step, the result of which was the emergence of an online platform directly as an investment trading company.

In addition, we are strengthening the security of the platform to protect user data and financial transactions. Also, against the background of the upcoming expansion of the range of products and services provided by us to our customers, the company plans to improve the user interface (UI) and user experience (UX) of the online platform to ensure an even more convenient process of investing and conducting all the necessary transactions.

2024

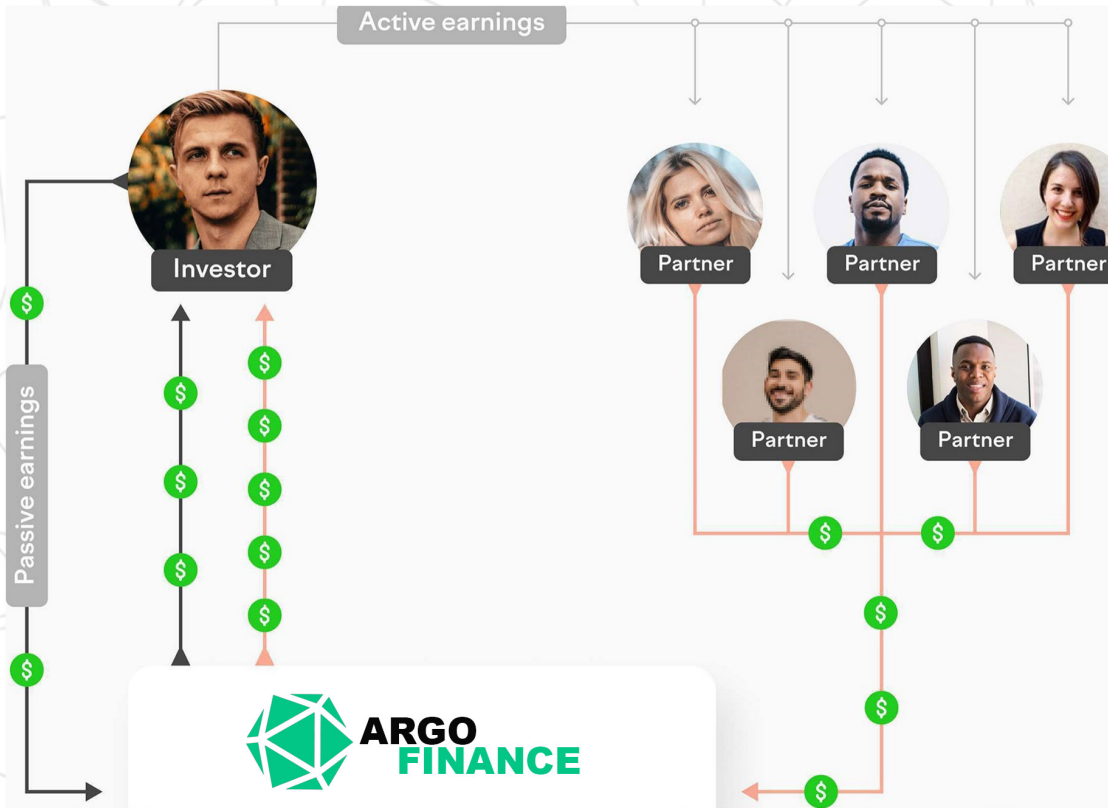

We want to devote this year to the finance and development of the company in terms of increasing the coverage of the market in which the platform Among operates. such actions, we see the most important as conducting an initial I PO, initializing the initial ICO and starting the process of lending to foreign exchange funds.

You always get more with **ARGO FINANCE!**

Our concept for cooperation with investors is freedom of choice and more profit in any case!

This has become possible because in addition to passive online earnings, when you just invest money and then make a profit, you can take advantage of active earnings, which are based on inviting new investors to the company and receiving partner and career bonuses for their investments here.

Your financial growth opportunities.

Our might and prosperity through partnership

The Partner program for our company is an effective tool, using which we develop, become stronger, more successful and more influential in the cryptocurrency investment market.

The reciprocity of interests and the commonality of goals leads to such a result, because the more powerful and influential the company, the better the conditions for each of its partners, the better the conditions for investing and earning, and the more tools for earning and investing, the more money, more profit.

Get the Leader ranks and move even ever higher

The Leadership program is a reliable path to increasing your own income. Each Rank in the Leadership program is an increase in your profit by 15%, all other things being equal.

This is the solution that you were looking for and this is the thing that is waiting for you to use it right now!.

Careers and rewards for your success

Leadership Ranks are great career opportunities

The Leadership program is career advancement and obtaining the highest leadership Ranks depending on the denominations of your Structural and Personal turnover.

The Structural turnover depends on the level.

Your Structural turnover will always depend on the amounts of investments made by the partners of your structure. In turn, the amount that will be counted in your Structural turnover will always depend on the level of the partner who invested in our company

The larger the Personal turnover, the higher the Rank.

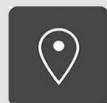

Together with the Structural turnover, at climbing the career, you should also take into account the nominal value of your Personal turnover. The more you invest, the faster you will be able to reach a higher Rank in the Leadership program, which will further strengthen your status as a Leader.
